Overview

The Arc Prince George's County (The Arc) contracted with Raffa, P.C. (Raffa) to conduct a Bench Strength Review of the Senior Management Team, including the Executive Director, for the purpose of informing the organization's leadership transition process. This project entailed a high-level scan of the roles and responsibilities of the senior team to identify gaps in backup support for each team member and the strengths and challenges related to the capacity of the senior management team. The report can be used to inform decisions regarding the revision of job descriptions, professional development needs of team members, and the staffing structure of the senior team. The report also highlights any risks affecting leadership continuity on the senior team.

Methodology

Each senior staff member completed a thorough bench strength query tool and participated in an individual 60-90 minute phone interview with Raffa's staff. The following positions participated in the process:

- Executive Director
- Director of Administration
- Director of Day Services
- Director of Employment Services
- Director of Family and Community Supports
- Director of Finance
- Director of Human Resources
- Director of Nursing
- Director of Residential Services

Key Findings

The following are key findings from the review.

Given that job descriptions have evolved over time, an intentional effort should be made to update all job
descriptions to accurately reflect the currentroles and responsibilities of each position.
